

For lofts diagnosed with
Chlamydia, Mycoplasma, E.coli & Streptococcus

RACE PROGRAMME 1 OPTION 2

Mixed into Food	Week Day	In Drinking Water		
Turbobooster E-Powder Bloomford F-Vite & Grit	Saturday	Quik Gel drink for race & toss birds PM Resfite SulfaAVS Megamix		
Turbobooster E-Powder Ve8 Powder Bloomford	Sunday	Resfite SulfaAVS Megamix	Sunday morning dropping check	Smaller, dry brown Sunday morning droppings indicates a positive response to Resfite, Sulfa AVS & Megamix. This treatment needs to be repeated on Sunday.
Turbobooster E-Powder Ve8 Powder Bloomford	Monday	Moxi-T TurboSole Megamix	Monday morning dropping check	Small, dry Monday morning droppings showing a conspicuous snow white capping indicates Resfite SulfaAVS Megamix should started again next Saturday afternoon.
F-Vite & picking stone in dish	Tuesday	AM - Moxi-T Megamix PM - KD	Tuesday morning dropping check	Small, dry droppings with bloom drop on Tuesday morning is a very positive response to Moxi-T. Continue Moxi-T until Tuesday pm then 1/2 dose KD. KD full dose when droppings large or green
PM - Remove F-Vite, grit & picking stone	Wednesday	Dufoplus Ioford Megamix	Final morning dropping check	Smaller, more dry Wednesday morning droppings indicates a positive response to KD and need to repeat the same programme next week
E-Powder in a dish	Thursday	Ioford Megamix		Larger, green or watery Wednesday morning droppings are negative signs of KD meaning a change of programme may be necessary. Double check Sunday and Tuesday morning droppings to see which medicine(s) is no longer needed.
E-Powder in a dish	Friday	Quik Gel		Small, dry perfectly formed droppings will miraculously appear on basket day following the health tonics given from Wednesday to basket day.
