Fresh seed	Day 4	Fresh water
Fresh seed	Day 5	Fresh water
Fresh seed	Day 6	Fresh water
Fresh seed	Day 7	Fresh water

Mixing Instructions

¹ Mix 1gm KD Powder (white spoon) into 1 litre of drinking water. Fill the water vessel and use the remainder to clean the cage.

² Mix 3 drops Inca Honey thoroughly into 100ml of drinking water.

³ Mix 10 drops Ioford, 5 drops Dufoplus and 10 drops Megamix thoroughly into 100ml of drinking water.

⁴ To 100gm of sterile millet mix (no sunflower) add 3 drops (half the normal dose) of Turbobooster and mix thoroughly. Then, add 1gm (white spoon) each of E-Powder and F-Vite and mix again so that these powders stick to the Turbobooster oil impregnated seed.
